

Friday May 16<sup>th</sup> 2025,

Dear parents,

In recent weeks, a number of Future Pathways events have taken place in our school. Last week, for example, we held a Scholarship Fair & Careers Talk event in our MPH for secondary students, whereas yesterday we delivered a Future Pathways Parent Workshop in our parent café area for all who were interested – and thank you to all who were able to attend!

This follows on from [a CP letter sent previously on February 21<sup>st</sup> 2025](#) in which an overview of our Future Pathways provision was outlined. Future Pathways is one of ISP's (International Schools Partnership) key pillars, and it is essential that we are very actively and purposefully equipping our students for success beyond the classroom. If parents wish to read even more detail about what Future Pathways looks like in Straits International School Rawang, and indeed in all ISP schools globally, then you can do so by clicking [here](#).

Another key ISP pillar that we are developing this academic is our Life Competencies provision. Since January, our Heads of School – Ms. Katherine & Mr. Simon – have been leading awareness campaigns and consultation processes with both students and teachers about what we want this to look like in our school. Just this week, this key task has now been completed and further information will be communicated to parents over the remainder of this term. Our aim here is to not only ensure that we are supporting the holistic development of all students but also to provide clarity around our shared intentions moving forward.

Also coming soon will be our Straits International School Rawang Multilingualism vision statement, created recently by our Head of Multilingualism – Ms. Sutha – and her incredible team of EAL experts. This statement is designed to outline our strategies around supporting highly effective English proficiency for students of all levels, including those who may join our community whilst they are new to the English language.

**GROWING,  
TOGETHER**

A decorative graphic consisting of several colored dots in red, yellow, green, and orange, arranged in a cluster to the right of the 'GROWING, TOGETHER' text.

All of the above will serve to further define the provision which we offer in our school and should allow you as parents to be fully aware of the specialist education being offered to students in our school. There are always many facets to school life, so clarity rather than confusion is always the preferred state.

As always, if any parents would like to contact me about any of the points above, or indeed about any other issues, then you are always welcome to do so via the email address below.

Yours sincerely,

Steven Miles.  
Campus Principal – Straits International School Rawang
